Dear Parents and Students,

It's that time to get ready to come back to school. We hope everyone has enjoyed this beautiful summer vacation and is excited to get back into the swing of things!

Below is important information that will make the start of the school year an easy transition for all. Please read:

- **If you have not been assigned a bus route in the past and need busing, *YOU* must call us to make arrangements. This includes students starting kindergarten.**
- When you will NOT be riding (sick day, on vacation, getting a ride) call us the night before or at least 15 minutes before your morning pick up time. This avoids unnecessary delays or having to guess if the student is riding.
- If you plan to drive everyday, call and tell us. You remain on the bus route but the bus will not stop unless you call and request pick up.

A friendly reminder:

- **NO HOMEWORK** except reading a book; Homework is for at home not on the school bus; All writing utensils must stay put away or they will be thrown away.
- **NO FOOD OR DRINK** of any kind allowed on route buses; Any food or drink found will be thrown away.
- Review school bus safety rules with your child (ren) before school starts.

The rules are enforced for the safety of all riders. Disciplinary action is followed as noted in the Back to School packet under the Student Transportation Safety policy.

Your bus route information will be mailed approximately one week before school starts.

We are looking forward to another great year!
