Browerville Voters Supports Rebuilding of High Gym and Support Spaces

The Browerville School Board and administration would like to thank everyone who voted in the special election on November 7.

School district residents approved the single question ballot, with 59 percent voting yes, to rebuild the high school gymnasium and support spaces, including locker rooms, a wrestling/multipurpose space, a student weight room, a student walking track, ADA access to the new gym, a lobby, and a special education classroom.

“We would like to thank everyone who supported the school district through the planning process for this project. The board, administration and community task force worked diligently to be informed and provide the district with feedback on the best solutions for the school, students, staff, and community. We are extremely excited to move forward and are making the commitment to keep our stakeholders informed as we move through the process of executing our plan.”

The next steps will be for the district to continue to work with consultants on the project design and ultimately execution. Updates to the community will continue to be provided in the district’s school board meetings, school newsletters, on social media and the district’s website.
