ATTENDANCE AND PERMITS

ATTENDANCE RULES

*See “**PARTICIPATION**” on pg. 10 for athletic event implications of attendance.

Regular attendance is **absolutely essential** to successful schoolwork. Make regularity of attendance your watchword at all times throughout high school.

The Minnesota State Department of Education is very specific in what constitutes an excusable absence. Illness of the pupil, illness of some member of the immediate family, quarantine or death in the immediate family, impassible roads, work permits or exceptionally urgent reasons would be considered among the legitimate reasons for an excused absence. **Truancy, play, oversleeping, unapproved work absences, shopping and parental neglect, whether such absence is with or without the knowledge of the parent or guardian, is unexcused. When a student in grades 7-12 has missed five (5) class periods or days in a semester the parent(s)/guardians will be contacted and a decision will be made whether future absences will be excused without a doctor/dentist/clergy verification. Each situation will be reviewed and a decision made on an individual basis regarding pursuit of Truancy through the Todd County Attorney’s Office.**

ATTENDANCE AWARDS

Perfect Attendance is recognized as a student with no absences for the school year (except school related activities like music contests), and one or less unexcused tardy. **Exemplary Attendance** is recognized as a student with two (2) or less absences for the school year and seven (7) or less unexcused tardies. **Outstanding Attendance** is recognized as a student with four (4) or less absences for the school year and ten (10) or less unexcused tardies. Any unexcused absences will eliminate a student from consideration for the attendance awards.

ABSENT SLIPS

If you have been absent, even for one period, you must obtain an admit slip from the Principal’s office. Get this slip from the Principal’s Office when you return to school before entering any class

even though you may not use the admit slip for class purposes until the next day. Twice the time missed is allowed for making up missed work.

When it is anticipated that student will be absent or late, parents should call the office at 594-2272 between 8:00 a.m. and 9:00 a.m. with the reason for the absence or lateness. Failure to have an excuse, either written or by phone call, upon returning to school will result in an unexcused absence.

TARDINESS

If you are tardy to any class during the day, your teacher will mark you tardy. Passes for morning and noon tardiness must be issued by the office. The classroom teacher involved will resolve all other tardiness.

All tardiness is unexcused unless you have been detained by a teacher and have a pass issued by the teacher detaining you. Any student who receives 4 unexcused tardies in one quarter will receive an unexcused absence and a reduction in the quarter grade. Each unexcused tardy after the 4th will result in additional lowering of a student's grade.

LEAVING GROUNDS

Students are considered on school grounds when they arrive on the premises in the morning.

Students must not leave the school grounds before the regular classes are over unless they have a pass from the office in their possession. Any absences during the day without clearance from the office before leaving are considered unexcused.

All students who need to leave the school during the day must have permission from the Principal's Office. Parent's may call or send a note to indicate departing time and to give permission to leave. EMERGENCY ERRANDS may be run during the lunch period, but again, only with parent and administration permission. Students must sign out in the office when leaving and sign in when returning to school.

TRANSFER AND WITHDRAWALS

If you are transferring to another school or withdrawing from this school, before leaving you must present to the Principal a written excuse from your parent or guardian to withdraw. This method alone constitutes an honorable dismissal. You will be given a clearance slip, which is to be signed, by all your teachers and the Principal.

POLICY ON VISITORS TO THE SCHOOL

In order to provide a safe and positive atmosphere for learning at the Browerville Public Schools the following policy on visitors to the school will be followed:

1. Any and all visitors to the Browerville schools are to report to the main office to sign in for a visitors pass.
2. Students who are enrolled in the Post Secondary Option Program are considered visitors and must report to the main office to sign in.
3. Student visitors from other schools will not be allowed during the regular school day. (An exception would be a guest lecturer and or program participants.)

GENERAL REGULATIONS

MORAL CONDUCT

Careful supervision will be exercised over the moral conditions of students. Gambling, immorality, profanity, the use of tobacco, narcotics and intoxicating liquors, on the school grounds or elsewhere, is in violation of state law and shall not be tolerated. School personnel will make every effort to see that these laws are enforced and will confiscate any of the above depressants carried by students and report them to the Principal.

ACCIDENTS AND INJURIES

Due diligence is always exercised in preventing accidents. First aid services are available and severe cases will be referred to the clinic after parents are notified.

Accident reports are to be completed as soon as possible following the accident. Students who have been injured must report it to the office immediately.

A Certificate of Coverage has been sent to each family indicating medical, hospital and dental benefits available.

BORROWING OF EQUIPMENT

Equipment, dishes or furniture for plays, meetings and programs, may be borrowed from one place for use in another only with permission of the relevant teacher or staff member involved. Borrowed articles must be returned immediately after their use.

DRIVING

Students are not permitted to drive or ride in or on any motor vehicle during the noon hour or any part of the school day, unless parents request and the Principal gives permission to do so. Students are not to drive to religious instruction if religious instruction is conducted during the school hours. Should it be necessary to drive during the day, permission must be obtained from the Principal. Student's vehicles must be parked on the street to the north of the building or in the East Parking Lot, or along the south side of the building and not in the reserved faculty parking areas along Park Avenue or along the south side of the building. Parking in the faculty parking area may result in car being towed.

PARTICIPATION

Students are encouraged to participate in co-curricular activities including athletics, one-act play, plays, band, choir, HOSA, BPA, & FFA.

In order to participate in an activity on a school night as a team member, you must be in school no less than a half day (Periods 1-4, or Periods 4-7) the day of the activity or obtain permission from school administration to be absent. This is interpreted to include weekends. If a student leaves school during the school day due to illness, they will not be permitted to participate in the evening activity even though they may have been in school a half day. A student absent on Friday must obtain administrator's permission before participating in a Saturday or Sunday school event.

Students who participate in team events or participate in school activities must ride in school sponsored transportation to and from the activity. The only exception is students who are released directly and in-person to parents or legal guardians. Any special circumstances must be arranged with the athletic director or school administrator 24 hours in advance.

SCHEDULING OF EVENTS

The school calendar is arranged each spring for the next school term. Class sponsored activities not on the regular school calendar must be approved by the Administration according to the activities form provided.

TELEPHONE

STUDENTS WILL NOT BE CALLED FROM THE CLASSROOM TO ANSWER THE TELEPHONE EXCEPT IN **EXTREME EMERGENCIES**. A PUBLIC PHONE IS LOCATED IN THE BUILDING FOR STUDENT USE. STUDENTS MAY NOT USE THE PHONE DURING CLASSES AND WILL NOT BE GIVEN PASSES TO MAKE CALLS.

DISCIPLINARY REPORTS

A policy (#506) for the handling of student disciplinary violation has been established by the Board of Education and the Administration and offers details of the school's disciplinary policy. In all cases, the first factor considered is student safety. In the best interest of the student, student learning, and in accordance with Minnesota Statutes, non-exclusionary disciplinary practices will be employed when practicable. Normally the following action will be followed: In the first offense, the student is counseled with and [usually] the parents are called or a report is mailed to the home so that parents are made aware of the infractions and the results. A second offense may necessitate a parent be asked to come to the school for a conference. The third offense may result in suspension of not more than ten days. Based on the severity of the behavior the student may be suspended immediately as per Minnesota Pupil Fair Dismissal Act. Depending on the violation, an additional five days may be added with a recommendation to the Board of Education for the expulsion of the student. In the case of expulsion the student is entitled to a hearing following the guidelines and procedures established by the State Department of Education.

TIGER DRESS AND APPEARANCE CODE

The purpose of this policy is to enhance the education of students by establishing expectations that support educational goals. Students and their families have the primary and joint responsibility for student clothing and appearance. Teachers and other district staff should exemplify and reinforce student clothing and appearance standards and help students develop an understanding of appropriate appearance in the school environment.

- A. The policy of the school district is to encourage students to be dressed suitably [or appropriately] for school activities and in keeping with community standards.
- B. A student's clothing or appearance may not materially and substantially disrupt or interfere with the educational mission, school environment, classwork, or school activities. A student's dress or appearance may not incite or contribute to substantial disorder or invasion of the rights of others or pose a threat to the health or safety of the student or others.

More specifically, student clothing must:

1. does not injure people or damage property;
2. does not materially and substantially disrupt or interfere with the educational process or classwork;
3. does not interfere with the requirements of discipline in the operation of the school or school activities, materially disrupt classwork;

3. Apparel promoting products or activities that are illegal for use by minors.
4. Communicating a message that is racist, sexist, or otherwise derogatory to a protected minority group, or approves, advances, or provokes any form of religious, racial, or sexual harassment and/or violence against other individuals as defined in Policy 413.

Cleanliness of the body and dress is vital to the individual student and the other students that share a locker area, classroom, shop, lab, and athletic/physical education location. Dress and grooming styles that create a disruption of the learning process within the classroom and building will not be tolerated.

ENFORCEMENT PROCEDURE

Students who are found to have worn inappropriate attire to school will be subject to the following:

CELL PHONE POLICY

[Note: School districts are required by statute to have a policy addressing cell phone use.]

I. Rationale for Cell Phone Policy

Research shows cell phone use in the classroom is a significant distraction and interferes with student learning. In addition, studies showed that excessive cell phone use has been linked to increased anxiety and stress among students. Cell phone use in classrooms also led to an increase in cheating and reduced participation in classroom discussions. Finally, the Minnesota legislature passed a statute compelling schools to establish a policy on students' possession and use of cell phones in school.

Huey M, Giguere D. The Impact of Smartphone Use on Course Comprehension and Psychological Well-Being in the College Classroom. Innov High Educ. 2023;48(3):527-537. doi: 10.1007/s10755-022-09638-1. Epub 2022 Nov 18. PMID: 36440453; PMCID: PMC9676861.

Conducted a study of four classes (n=106). Two control and two quasi-experimental. The results showed higher comprehension of class material, lower anxiety and better psychological health for the quasi-experimental groups than that of the control groups. Conducted in an undergraduate school in New York.

Beland, L. P., & Murphy, R. (2016). Ill communication: Technology, distraction & student performance. Labour Economics, 41, 61-76

Beland and Murphy study (2016) showed reported that when cell phones were banned from classrooms, standardized test scores went up approximately 6% on average and more than 14% for low-achieving students.

Legislation Passed:

Minn. Stat. 121A.73

A school district or charter school must adopt a policy on students' possession and use of cell phones in school by March 15, 2025. The Minnesota Elementary School Principals Association and Minnesota Association of Secondary School Principals must collaborate to make best practices available to schools on a range of different strategies in order to minimize the impact of cell phones on student behavior, mental health, and academic attainment.

II. General Statement of Policy:

Students are encouraged not to bring cell phones or other electronic devices including smart watches, and earbuds/air pods or anything Bluetooth connected to the phone to school. If students choose to bring a cell phone/device to school the expectations are as follows: Cell phones, electronic devices (including smart watches) and earbuds/air pods will remain in lockers during the academic school day, including lunch and passing time between classes.

- Students who need to be in contact with their family during the academic day are to ask permission to use one of our school phones. Parents are welcome and encouraged to contact our main office if there is a message that needs to be relayed.
- Students assume the risk of damage, theft, or loss when choosing to bring a phone to school.
- Students may use their cell phone, smart watches, and earbuds/air pods before and after the academic school day. This includes:
 - Checking in or responding to family members.

- Sending and receiving appropriate communication with friends.
- Sharing school-appropriate material with friends.
- Cell phone use of any kind is not permitted in locker rooms or bathrooms.
- Earbuds/headphones may be allowed at designated times for instructional purposes on school approved devices.
- Phone usage during lockdown and fire drills is prohibited.
- Using a cell phone to record or take photos of staff members or other students is not allowed without permission.
- Recording or taking photos of classmates with the intent to bully or harass is not permitted.
- Using social media, apps, or any other function of a cell phone/device to spread rumors, bully, make fun of, exclude, or create a disruption in school or outside of school is not permitted.
- Sharing or asking classmates for inappropriate content is not permitted.
- Cell Phone Guidelines for off-campus school activities (i.e. extracurricular activities, outdoor and service trips, school field trips) will be individualized depending on the specific trip and activities. These expectations will be addressed at pre-trip meetings and/or on trip-specific permission slips.

III. Procedure:

As the student arrives to school they will:

- 1) Turn their phone off/airplane mode/or silent and place it in their locker.
- 2) Place smart watch, earbuds, air pods, and accompanying Bluetooth devices connected to the cell phone in their locker.
- 3) At the end of the school day, students may access their cell phone and accompanying devices.

Violations of the Policy:

First Offense: The device will be taken to the office and the student will pick it up at the end of the school day.

Second Offense: A parent/guardian contact is made. The student will pick up the device at the end of the school day.

Third Violation: A parent/guardian contact is made. The parent/guardian will pick up the device at the end of the school day.

IV. Extenuating Circumstances:

Students who use their cell phone to monitor a medical condition (i.e. diabetes, epilepsy) may have their cell phone with them at all times, but must adhere to all other expectations of the cell phone policy. Please contact school administration if there is an essential need for a phone for approval. In the case of medical necessity or emergency, a student should have a health plan or prior approval.

If you need to contact your student during the school day, please contact the office at 320-594-2272 and a message will be delivered to your child as soon as practicable.

B. Membership Defined: A student must:

- 1) be practicing with the high school team;
- 2) be on the school's master eligibility list; and
- 3) be under the bylaws of the League.

C. Exceptions: At the member school's discretion, students may be allowed to join a team after the fourth Monday (the 22nd calendar day) from the official start of that sport season and be fully eligible for regular season and post-season competition if they meet any of the four conditions below:

- 1) transfer students who become eligible in their new school; or
- 2) students who are participating in another sport and wish to drop that sport or participate in a second sport during that same sport season, provided they have not delayed their membership in order to gain a competitive advantage; or

- 2) in a camp or clinic; or
- 3) received private instruction in that sport during the high school season.

E. Along with meeting all the above requirements each case of an individual wanting to join a team after the 22nd calendar day will go through an interview process with the Superintendent, Principal, Athletic Director, and Head Coach. This panel will decide if the individual will be able to join the team at this point. This will be done on a case by case format.

PROGRESS & ELIGIBILITY REPORTS

Students enrolled in any class, including online classes, are expected to be making satisfactory progress. Faculty members are available and willing to help students accomplish this goal. Students who are participating in extracurricular activities and who are not passing a subject may lose eligibility to participate in any and all extracurricular activities, upon adoption and implementation of this policy. Students who are not participating in extracurricular activities may also be declared ineligible for certain privileges, as stated in this policy.

Any student who is not passing a class will be notified by the teacher with a copy of a DEFICIENCY REPORT which will also be sent to the parents or guardians indicating that a deficiency exists, the causes for the deficiency, and recommendations for improvement. The DEFICIENCY REPORT will be completed by the teacher and turned into the office.

A copy of the DEFICIENCY REPORT will remain on file in the high school office, and the advisor/coach of each affected extracurricular activity in which the student participates is notified. The advisor/coach is to discuss the deficiency with the student and offer encouragement for improvement.

Any student who is participating in an extracurricular activity and on whom a DEFICIENCY REPORT is sent shall be placed on **probation for a period of two weeks** during which the student will have an opportunity to improve the grade to passing. The two week period shall begin the day after the student has met with the Dean of Students or the Principal.

If grade is not improved to passing during the two week probationary period, the student will lose eligibility to participate in the extracurricular activity until the student is passing coursework. Ineligibility will be continuous until the grade has improved to passing or the student is no longer enrolled in the class. A student receiving a failing grade for the grading period will be ineligible for extracurricular activities for the following period:

- Category One Activities (All athletic activities and fine art activities: debate, speech, and one act play): (2) two weeks or (2) two events, whichever is greater.
- Category Two Activities (Drama, Music, all extracurricular activities not considered category 1): (2) two weeks or the next public performance or interscholastic event, whichever is greater.

Spring failures will be carried over to the fall activities for all students returning in the fall.

Second and fourth quarter failures will carry over to the next activity the student participates in.

For the purpose of this policy, a week shall be defined as five (5) school days. Any student who is suspended from participation in extracurricular activities has the right to a hearing upon request. The purpose of such hearing is to ensure that failing grades given the student were valid and warrant the prescribed suspension. This hearing will include the student, his or her parents or guardians, the teacher, and appropriate administrator(s).

During the period(s) of ineligibility, the student may participate in conditioning and practice, but he/she may not participate in any scheduled game/event/contest, defined as a Category One or Two activity by the MSHSL.

A student who is not passing a class and on whom a DEFICIENCY REPORT has been sent, whether or not he/she is participating in an extracurricular activity, will be subject to the following provisions of this policy.

Restriction List

The student will be placed on a "restriction list" beginning the day after the DEFICIENCY REPORT is sent. Restrictions will be determined by the principal, but may include no passes or visiting

privileges. A student will be removed from the restriction list by the teacher notifying the office verbally or by written note to office personnel.

A student who is in academic difficulty or whose class performance has significantly declined, but who is still passing the class, will be notified by the teacher and a written notice will be sent to the parents or guardians. This notice of academic danger may also be used to notify the parents or guardians of substantial change in achievement of a student and this notice will place the student on the restriction list. This notification of academic danger will not begin the ineligibility process described previously. A DEFICIENCY REPORT must be sent to begin the extracurricular probationary or ineligibility process.

This policy is proposed and adopted with the overall intention of establishing a system of timely notification of parents or guardians of academic difficulty and failures, while providing for incentives to improve the grades to passing. The intent is to reduce the number of failures in academic subjects and thereby help to provide a better education to students.

Any student with three or more deficiencies at any time will be the subject of a faculty/parent/student conference arranged by appropriate school staff.

Do not give your combination to anyone, report stolen or damaged locks to the office immediately. No personal locks allowed. Browerville Public Schools follow policy #502 regarding School Lockers. This policy is available to the public for review by contacting the Office of the Superintendent. Browerville Public Schools' locker policy outlines that school lockers are the property of the school district. At no time does the district relinquish its exclusive control of lockers provided for the convenience of students. Inspection of the interior of lockers may be conducted by school officials for any reason at any time, without notice, without student consent, and without a search warrant. The personal possessions of students within a school locker may be searched only when school officials have a reasonable suspicion that the search will uncover evidence of a violation of law, district policy, or school rules.

COURSE CHANGES AND ONLINE CLASSES

Schedule changes can be made during the first three days of the semester, as long as progress toward graduation is maintained. Any changes requested after that date is at the discretion of administration.

Online courses taken by Browerville students are subject to approval of the host school for the online high school-level classes (Supplemental OLL). Browerville Public School will assist as best as we can to help the student succeed in their online class, but the nature of online classes makes it difficult. Note: Supplemental OLL classes are limited to less than 50% of a student's school day. If Supplemental OLL coursework consists of more than 50%, MDE deems is comprehensive learning, and requires enrollment in the online school.

PSEO online courses taken by Browerville students are subject to the requirements of the post-secondary institution, and may have different school calendars and different schedule change policies than Browerville Public School's policy. Many online courses are graded by semester, not quarterly. Therefore, a grade may not appear on a student's first or third quarter report card for the online class. Grades are reported by the host institution on their timeline, which may cause problems for Browerville Schools to report final grades on report cards, and graduation status.

GRADE REPORTS

At the end of each nine-week period you will receive reports showing your standing in all your subjects. Each report is your property and need not be returned to the school. If grades are not satisfactory, you should arrange a meeting with your teacher. Teachers are willing to help do satisfactory work.

WORK REPORTS

The Mid-Term deficiency or proficiency reports are sent to parents. The principal and teacher are always glad to confer with parents regarding student problems.

STUDENT/PARENT RIGHTS

The Browerville Public School conforms and adheres to all requirements set forth in the Student Bill of Rights issued by the Minnesota Department of Children, Families and Learning, the Title IX established by the United States government, and the Family Educational Rights and Privacy Act of 1974 (inspection of student records by parents and eligible students). Complete copies of the above laws are available at the district office.

514 BULLYING PROHIBITION POLICY

[Note: School districts are required by statute to have a policy addressing bullying.]

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited:
1. on the school premises, at the school functions or activities, on the school transportation;
 2. by the use of electronic technology and communications on the school premises, during the school functions or activities, on the school transportation, or on the school computers, networks, forums, and mailing lists; or
 3. by use of electronic technology and communications off the school premises to the extent such use substantially and materially disrupts student learning or the school environment.
- B. A school-aged child who voluntarily participates in a public school activity, such as a cocurricular or extracurricular activity, is subject to the policy provisions applicable to the public school students participating in the activity.

C. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources. This policy also applies to sexual exploitation.

D. Malicious and sadistic conduct involving race, color, creed, national origin, sex, age, marital status, status with regard to public assistance, disability, religion, sexual harassment, and sexual orientation and gender identity as defined in Minnesota Statutes, chapter 363A is prohibited. This prohibition applies to students, independent contractors, teachers, administrators, and other school personnel.

Malicious and sadistic conduct and sexual exploitation by a school district or school staff member, independent contractor, or enrolled student against a staff member, independent contractor, or student that occurs as described in Article II.A above is prohibited.

E. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.

F. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.

G. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.

H. False accusations or reports of bullying against another student are prohibited.

I. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See MSBA/MASA Model Policy 506). The school district may take into account the following factors:

1. The developmental ages and maturity levels of the parties involved;
2. The levels of harm, surrounding circumstances, and nature of the behavior;
3. Past incidences or past or continuing patterns of behavior;
4. The relationship between the parties involved; and
5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

- J. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

- B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well.
- C. The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.
- E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.
- F. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.
- G. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

- A. Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.
- B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.
- C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (See MSBA/MASA Model Policy 506) and other applicable school district policies; and applicable regulations.
- E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged

perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.

- F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

VII. TRAINING AND EDUCATION

- A. The school district shall discuss this policy with school personnel and volunteers and provide appropriate training to school district personnel regarding this policy. The school district shall establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.
- B. The school district shall require ongoing professional development, consistent with Minnesota Statutes section 122A.60, to build the skills of all school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:
 - 1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
 - 2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;
 - 3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;
 - 4. The incidence and nature of cyberbullying; and
 - 5. Internet safety and cyberbullying.

- C. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.
- D. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
- E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

1. Engage all students in creating a safe and supportive school environment;
 2. Partner with parents and other community members to develop and implement prevention and intervention programs;
 3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;
 4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;
 5. Teach students to advocate for themselves and others;
 6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and
 7. Foster student collaborations that, in turn, foster a safe and supportive school climate.
- F. The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.
 - G. The school district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The school district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy (See MSBA/MASA Model Policy 515) in the student handbook.

VIII. NOTICE

- A. The school district will give annual notice of this policy to students, parents or guardians, and staff, and this policy shall appear in the student handbook.
- B. This policy must be conspicuously posted throughout each school building, in the administrative offices of the school district, and in the office of each school.
- C. This policy must be distributed to each school district or school employee and independent contractor at the time of hiring or contracting.
- D. Notice of the rights and responsibilities of students and their parents under this policy must be included in the student discipline policy (See MSBA/MASA Model Policy 506) distributed to parents at the beginning of each school year.
- E. This policy shall be available to all parents and other school community members in an electronic format in the language appearing on the school district's or a school's website.
- F. Each school must develop a process for discussing this policy with students, parents of students, independent contractors, and school employees.
- G. The school district shall provide an electronic copy of its most recently amended policy to the Minnesota Commissioner of Education.

IX. POLICY REVIEW

To the extent practicable, the school board shall, on a cycle consistent with other school district policies, review and revise this policy. The policy shall be made consistent with Minnesota Statutes, sections 121A.031 and 121A.0312 and other applicable law. Revisions shall be made in consultation with students, parents, and community organizations.

531 THE PLEDGE OF ALLEGIANCE

[Note: Recitation of the Pledge of Allegiance by students and instruction of students as provided in this policy are required by statute. Also, the statement in Part III., below, must be included in the student handbook or a policy guide. A local school board or a charter school board of directors may waive these statutory requirements by a majority vote taken annually. If the local school board or charter school board of directors waives the requirement to recite the Pledge of Allegiance, it may adopt a district or school policy regarding the reciting of the Pledge of Allegiance.]

I. PURPOSE

The school board recognizes the need to display an appropriate United States flag and to provide instruction to students in the proper etiquette, display, and respect of the flag. The purpose of this policy is to provide for recitation of the Pledge of Allegiance and instruction in school to help further that end.

II. GENERAL STATEMENT OF POLICY

Students in this school district shall recite the Pledge of Allegiance to the flag of the United States of America one or more times each week. The recitation shall be conducted:

- A. By each individual classroom teacher or the teacher's surrogate; or
- B. Over a school intercom system by a person designated by the school principal or other person having administrative control over the school.

III. EXCEPTIONS

Anyone who does not wish to participate in reciting the Pledge of Allegiance for any personal reasons may elect not to do so. Students and school personnel must respect another person's right to make that choice.

IV. INSTRUCTION

Students will be instructed in the proper etiquette toward, correct display of, and respect for the flag, and in patriotic exercises.

526 HAZING PROHIBITION

[Note: School districts are required by statute to have a policy addressing these issues. The Minnesota Department of Education (MDE) will maintain and make available a model policy on student and staff hazing in accordance with Minn. Stat. § 121A.69. The MDE model policy differs from the MSBA/MASA model policy as it incorporates state and federal requirements related to harassment and discrimination which extends beyond the mandate of Minn. Stat. § 121A.69. Topics of harassment and discrimination are addressed in other MSBA/MASA policies. While school districts are required to adopt a policy governing student and staff hazing, school districts are not required to adopt any particular policy. MSBA recommends this policy.]

I. PURPOSE

The purpose of this policy is to maintain a safe learning environment for students and staff that is free from hazing. Hazing activities of any type are inconsistent with the educational goals of the school district and are prohibited at all times.

II. GENERAL STATEMENT OF POLICY

- A. No student, teacher, administrator, volunteer, contractor, or other employee of the school district shall plan, direct, encourage, aid, or engage in hazing.
- B. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate hazing.
- C. Apparent permission or consent by a person being hazed does not lessen the prohibitions contained in this policy.
- D. Retaliation against a victim, good faith reporter, or a witness of hazing is prohibited.
- E. False accusations or reports of hazing against a student, teacher, administrator, volunteer, contractor, or other employee are prohibited.
- F. A person who engages in an act of hazing, reprisal, retaliation, or false reporting of hazing or permits, condones, or tolerates hazing shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures.

Consequences for students who commit, tolerate, or are a party to prohibited acts of hazing may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion.

Consequences for employees who permit, condone, or tolerate hazing or engage in an act of reprisal or intentional false reporting of hazing may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of hazing may include, but not be limited to, exclusion from school district property and events and/or termination of services and/or contracts.

- G. This policy applies to hazing that occurs during and after school hours, on or off school premises or property, at school functions or activities, or on school transportation.
- H. A person who engages in an act that violates school policy or law in order to be initiated into or affiliated with a student organization shall be subject to discipline for that act.
- I. The school district will act to investigate all complaints of hazing and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

- A. “Hazing” means committing an act against a student, or coercing a student into committing an act, that creates a substantial risk of harm to a person, in order for the student to be initiated into or affiliated with a student organization, or for any other school-related purpose. The term hazing includes, but is not limited to:
 - 1. Any type of physical brutality such as whipping, beating, striking, branding, electronic shocking, or placing a harmful substance on the body.
 - 2. Any type of physical activity such as sleep deprivation, exposure to weather, confinement in a restricted area, calisthenics, or other activity that subjects the student to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student.
 - 3. Any activity involving the consumption of any alcoholic beverage, drug, tobacco product, or any other food, liquid, or substance that subjects the student to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student.
 - 4. Any activity that intimidates or threatens the student with ostracism, that subjects a student to extreme mental stress, embarrassment, shame, or humiliation, that adversely affects the mental health or dignity of the student or discourages the student from remaining in school.
 - 5. Any activity that causes or requires the student to perform a task that involves violation of state or federal law or of school district policies or regulations.
- B. “Immediately” means as soon as possible but in no event longer than 24 hours.
- C. “On school premises or school district property, or at school functions or activities, or on school transportation” means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student’s walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting hazing at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.
- D. “Remedial response” means a measure to stop and correct hazing, prevent hazing from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of hazing.
- E. “Student” means a student enrolled in a public school or a charter school.
- F. “Student organization” means a group, club, or organization having students as its primary members or participants. It includes grade levels, classes, teams, activities, or particular school events. A student

organization does not have to be an official school organization to come within the terms of this definition.

IV. REPORTING PROCEDURES

- A. Any person who believes he or she has been the target or victim of hazing or any person with knowledge or belief of conduct which may constitute hazing shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report hazing anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The school district encourages the reporting party to use the report form available from the principal or building supervisor of each building or available from the school district office, but oral reports shall be considered complaints as well.

The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of hazing at the building level. Any adult school district personnel who receives a report of hazing prohibited by this policy shall inform the building report taker immediately. Any person may report hazing directly to a school district human rights officer or to the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as a primary contact on policy and procedural matters.

- C. A teacher, administrator, volunteer, contractor, and other school employees shall be particularly alert to possible situations, circumstances, or events which might include hazing. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct which may constitute hazing shall make reasonable efforts to address and resolve the hazing and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute hazing or who fail to make reasonable efforts to address and resolve the hazing in a timely manner may be subject to disciplinary action.
- D. Submission of a good faith complaint or report of hazing will not affect the complainant or reporter's future employment, grades, work assignments, or educational or work environment.
- E. Reports of hazing are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of hazing and the record of any resulting investigation.
- F. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's legal obligations to investigate, to take appropriate action, and to comply with any discovery or disclosure obligations.

V. SCHOOL DISTRICT ACTION

- A. Within three (3) days of the receipt of a complaint or report of hazing, the school district shall undertake or authorize an investigation by school district officials or a third party designated by the school district.
- B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the hazing, the complainant, the reporter, and students or others pending completion of an investigation of alleged hazing prohibited by this policy.

- C. The alleged perpetrator of the hazing shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines hazing has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited behavior. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; and applicable school district policies and regulations.
- E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets or victims of hazing and the parent(s) or guardian(s) of alleged perpetrators of hazing who have been involved in a reported and confirmed hazing incident of the remedial or disciplinary action taken, to the extent permitted by law.
- F. In order to prevent or to respond to hazing committed by or directed against a child with a disability, the school district shall, where determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in hazing.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged hazing, who provides information about hazing, who testifies, assists, or participates in an investigation of alleged hazing, or who testifies, assists, or participates in a proceeding or hearing relating to such hazing. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct.

VII. DISSEMINATION OF POLICY

[Note: Proper reference should be made to the appropriate handbooks in each school district.]

- A. This policy shall appear in each school's student handbook and in each school's building and staff handbooks.
- B. The school district will develop a method of discussing this policy with students and employees.

413 HARASSMENT AND VIOLENCE

[Note: State law (Minn. Stat. § 121A.03) requires that school districts adopt a sexual, religious, and racial harassment and violence policy that conforms with the Minnesota Human Rights Act, Minn. Stat. Ch. 363A (MHRA). This policy complies with that statutory requirement and addresses the other classifications protected by the MHRA and/or federal law. While the recommendation is that school districts incorporate the other protected classifications, in addition to sex, religion, and race, into this policy, they are not specifically required to do so by Minn. Stat. § 121A.03. The Minnesota Department of Education (MDE) is required to maintain and make available a model sexual, religious, and racial harassment policy in accordance with Minn. Stat. § 121A.03. MDE’s policy differs from that of MSBA and imposes greater requirements upon school districts than required by law. For that reason, MSBA recommends the adoption of its model policy by school districts. Each school board must submit a copy of the policy the board has adopted to the Commissioner of MDE.]

I. PURPOSE

The purpose of this policy is to maintain a learning and working environment that is free from harassment and violence on the basis of race, color, creed, religion, national origin, sex, age, marital status, familial status, status with regard to public assistance, sexual orientation, including gender identity or expression, or disability.

[Note: The Minnesota Human Rights Act defines “sexual orientation” to include “having or being perceived as having a self-image or identity not traditionally associated with one’s biological maleness or femaleness.” Minn. Stat. § 363A.03, Subd. 44.]

II. GENERAL STATEMENT OF POLICY

- A. The policy of the school district is to maintain a learning and working environment that is free from harassment and violence on the basis of race, color, creed, religion, national origin, sex, age, marital status, familial status, status with regard to public assistance, sexual orientation, including gender identity or expression, or disability. The school district prohibits any form of harassment or violence on the basis of race, color, creed, religion, national origin, sex, age, marital status, familial status, status with regard to public assistance, sexual orientation, including gender identity or expression, or disability.
- B. A violation of this policy occurs when any student, teacher, administrator, or other school district personnel harasses a student, teacher, administrator, or other school district personnel or group of students, teachers, administrators, or other school district personnel through conduct or communication based on a person’s race, color, creed, religion, national origin, sex, age, marital status, familial status, status with regard to public assistance, sexual orientation, including gender identity or expression, or disability, as defined by this policy. (For purposes of this policy, school district personnel include school board members, school employees, agents, volunteers, contractors, or persons subject to the supervision and control of the district.)
- C. A violation of this policy occurs when any student, teacher, administrator, or other school district personnel inflicts, threatens to inflict, or attempts to inflict violence upon any student, teacher, administrator, or other school district personnel or group of students, teachers, administrators, or other school district personnel based on a person’s race, color, creed, religion, national origin, sex,

age, marital status, familial status, status with regard to public assistance, sexual orientation, including gender identity or expression, or disability.

- D. The school district will act to investigate all complaints, either formal or informal, verbal or written, of harassment or violence based on a person's race, color, creed, religion, national origin, sex, age, marital status, familial status, status with regard to public assistance, sexual orientation, including gender identity or expression, or disability, and to discipline or take appropriate action against any student, teacher, administrator, or other school district personnel who is found to have violated this policy.

 7. “Status with regard to public assistance” means the condition of being a recipient of federal, state, or local assistance, including medical assistance, or of being a tenant receiving federal, state, or local subsidies, including rental assistance or rent supplements.
- E. “Remedial response” means a measure to stop and correct acts of harassment or violence, prevent acts of harassment or violence from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of acts of harassment or violence.

IV. REPORTING PROCEDURES

- A. Any person who believes he or she has been the target or victim of harassment or violence on the basis of race, color, creed, religion, national origin, sex, age, marital status, familial status, status with regard to public assistance, sexual orientation, including gender identity or expression, or disability by a student, teacher, administrator, or other school district personnel, or any person with knowledge or belief of conduct which may constitute harassment or violence prohibited by this policy toward a student, teacher, administrator, or other school district personnel or group of students, teachers, administrators, or other school district personnel should report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report conduct which may constitute harassment or violence anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available from the school district office, but oral reports shall be considered complaints as well.
- C. Nothing in this policy shall prevent any person from reporting harassment or violence directly to a school district human rights officer or to the superintendent. If the complaint involves the

building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

- D. In Each School Building. The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving oral or written reports of harassment or violence prohibited by this policy at the building level. Any adult school district personnel who receives a report of harassment or violence prohibited by this policy shall inform the building report taker immediately. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant. The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as a primary contact on policy and procedural matters.
- E. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include acts of harassment or violence. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute harassment or violence shall make reasonable efforts to address and resolve the harassment or violence and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute harassment or violence or who fail to make reasonable efforts to address and resolve the harassment or violence in a timely manner may be subject to disciplinary action.
- F. Upon receipt of a report, the building report taker must notify the school district human rights officer immediately, without screening or investigating the report. The building report taker may request, but may not insist upon, a written complaint. A written statement of the facts alleged will be forwarded as soon as practicable by the building report taker to the human rights officer. If the report was given verbally, the building report taker shall personally reduce it to written form within 24 hours and forward it to the human rights officer. Failure to forward any harassment or violence report or complaint as provided herein may result in disciplinary action against the building report taker.
- G. In the District. The school board hereby designates _____ as the school district human rights officer(s) to receive reports or complaints of harassment or violence prohibited by this policy. If the complaint involves a human rights officer, the complaint shall be filed directly with the superintendent.¹
- H. The school district shall conspicuously post the name of the human rights officer(s), including mailing addresses and telephone numbers.
- I. Submission of a good faith complaint or report of harassment or violence prohibited by this policy will not affect the complainant or reporter's future employment, grades, work assignments, or educational or work environment.
- J. Use of formal reporting forms is not mandatory.
- K. Reports of harassment or violence prohibited by this policy are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law.
- L. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's legal obligations to investigate, to take appropriate action, and to comply with any discovery or disclosure obligations.

¹ In some school districts the superintendent may be the human rights officer. If so, an alternative individual should be designated by the school board.

- M. Retaliation against a victim, good faith reporter, or a witness of violence or harassment is prohibited.
- N. False accusations or reports of violence or harassment against another person are prohibited.
- O. A person who engages in an act of violence or harassment, reprisal, retaliation, or false reporting of violence or harassment, or permits, condones, or tolerates violence or harassment shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures.

Consequences for students who commit, or are a party to, prohibited acts of violence or harassment or who engage in reprisal or intentional false reporting may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion.

Consequences for employees who permit, condone, or tolerate violence or harassment or engage in an act of reprisal or intentional false reporting of violence or harassment may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of violence or harassment may include, but not be limited to, exclusion from school district property and events and/or termination of services and/or contracts.

V. INVESTIGATION

- A. By authority of the school district, the human rights officer, within three (3) days of the receipt of a report or complaint alleging harassment or violence prohibited by this policy, shall undertake or authorize an investigation. The investigation may be conducted by school district officials or by a third party designated by the school district.
- B. The investigation may consist of personal interviews with the complainant, the individual(s) against whom the complaint is filed, and others who may have knowledge of the alleged incident(s) or circumstances giving rise to the complaint. The investigation may also consist of any other methods and documents deemed pertinent by the investigator.
- C. In determining whether alleged conduct constitutes a violation of this policy, the school district should consider the surrounding circumstances, the nature of the behavior, past incidents or past or continuing patterns of behavior, the relationships between the parties involved, and the context in which the alleged incidents occurred. Whether a particular action or incident constitutes a violation of this policy requires a determination based on all the facts and surrounding circumstances.
- D. In addition, the school district may take immediate steps, at its discretion, to protect the target or victim, the complainant, and students, teachers, administrators, or other school district personnel pending completion of an investigation of alleged harassment or violence prohibited by this policy.
- E. The alleged perpetrator of the act(s) of harassment or violence shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- F. The investigation will be completed as soon as practicable. The school district human rights officer shall make a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, the report may be filed directly with the school board. The report shall include a determination of whether the allegations have been substantiated as factual and whether they appear to be violations of this policy.

VI. SCHOOL DISTRICT ACTION

- A. Upon completion of an investigation that determines a violation of this policy has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited behavior. School district action taken for violation of this policy will be consistent with requirements of applicable collective bargaining agreements, Minnesota and federal law, and applicable school district policies and regulations.
- B. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of targets or victims of harassment or violence and the parent(s) or guardian(s) of alleged perpetrators of harassment or violence who have been involved in a reported and confirmed harassment or violence incident of the remedial or disciplinary action taken, to the extent permitted by law.
- C. In order to prevent or respond to acts of harassment or violence committed by or directed against a child with a disability, the school district shall, where determined appropriate by the child's individualized education program (IEP) or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in acts of harassment or violence.

VII. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, or other school district personnel who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged harassment or violence prohibited by this policy, who testifies, assists, or participates in an investigation of retaliation or alleged harassment or violence, or who testifies, assists, or participates in a proceeding or hearing relating to such harassment or violence. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the harassment or violence. Remedial responses to the harassment or violence shall be tailored to the particular incident and nature of the conduct.

VIII. RIGHT TO ALTERNATIVE COMPLAINT PROCEDURES

These procedures do not deny the right of any individual to pursue other avenues of recourse which may include filing charges with the Minnesota Department of Human Rights, initiating civil action, or seeking redress under state criminal statutes and/or federal law.

IX. HARASSMENT OR VIOLENCE AS ABUSE

- A. Under certain circumstances, alleged harassment or violence may also be possible abuse under Minnesota law. If so, the duties of mandatory reporting under Minn. Stat. § 626.556 may be applicable.
- B. Nothing in this policy will prohibit the school district from taking immediate action to protect victims of alleged harassment, violence, or abuse.

X. DISSEMINATION OF POLICY AND TRAINING

- A. This policy shall be conspicuously posted throughout each school building in areas accessible to students and staff members.
- B. This policy shall be given to each school district employee and independent contractor who regularly interacts with students at the time of initial employment with the school district.

- C. This policy shall appear in the student handbook.
- D. The school district will develop a method of discussing this policy with students and employees.
- E. The school district may implement violence prevention and character development education programs to prevent and reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, resourcefulness, and/or sexual abuse prevention.
- F. This policy shall be reviewed at least annually for compliance with state and federal law.

BROWERVILLE SCHOOL DISTRICT

School Year Asbestos Management Notification

As a result of federal legislation (Asbestos Hazard Emergency Response Act – AHERA), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos-containing building materials. The Browerville School District has a goal to be in full compliance with this law and is following the spirit, as well as, the letter of the law. As a matter of policy, the district shall continue to maintain a safe and healthful environment for our community's youth and employees.

In keeping with this legislation, all buildings (including portables and support buildings) owned or leased by the Browerville School District were inspected by an EPA accredited inspector and an independent laboratory analyzed samples. Based on the inspection, the school prepared and the state approved a comprehensive management plan for handling the asbestos located within its buildings safely and responsibly.

Furthermore, the Browerville School District has completed the 3-Year Re-inspections required by AHERA. Our district buildings, where asbestos-containing materials were found, are under repair, removal and Operations and Maintenance.

This past year Browerville School District conducted the following with respect to its asbestos containing building materials:

*Continued the Operations and Maintenance Program

Federal law requires a periodic walk-through (called "surveillance") every six months of each area containing asbestos. MacNeil Environmental, Inc. will accomplish this under contract.

Short-term workers (outside contractors – i.e., telephone repair workers, electricians and exterminators) must be provided information regarding the location of the asbestos in which they may come into contact. All short-term workers shall contact the lead maintenance person before commencing work to be given this information.

The Browerville School District has a list of the location(s); type(s) of asbestos containing materials found in that school building and a description and timetable for their proper management. A copy of the Asbestos Management Plan is available for review in the school office. Copies are available at 25 cents per page. Questions related to the plan should be directed to Scott Bacher, with MacNeil Environmental, Inc., at 800-232-5209, Extension 621 or by contacting the Browerville School District at 320-594-2272.

Indoor Air Quality Notice

Browerville School District is proud to be taking a leadership role in providing a safe, comfortable and productive environment for our students and staff so that we achieve our core mission – educating students. Our school will follow the EPA guidance to improve our indoor air quality by preventing as many IAQ problems as possible, and by quickly responding to any IAQ problems that may arise. Good air quality requires an ongoing commitment by everyone in our school because each of us daily makes decisions and performs activities that affect the quality of the air we breathe.

School staff, students and parents can obtain checklists or self-help information so they can properly evaluate their child's home or other out of school situation by contacting the school. Staff and

parents can also obtain information about school facility construction, maintenance and housekeeping practices, chemicals used, mold and HVAC related information, chemical producing academic subjects, and pesticide and herbicide applications to determine the extent to which school activities contribute to a child's symptoms by contacting the school.

The Browerville School District Indoor Air Quality contact person is Walt Lucas, Building and Grounds. If there are any questions regarding the school's IAQ Program, please feel free to call the school at 320-594-2272.

Pesticide General Notice

A Minnesota state law went into effect in year 2000 that requires schools to inform school staff, students and parents if they apply certain pesticides on school property.

Specifically, this law requires schools that apply these pesticides to maintain an estimated schedule of pesticide applications and to make the schedule available to employees and parents for review or copying at the school office.

State law also requires that you be told that the long-term health effects on children from the application of such pesticides or the class of chemicals to which they belong may not be fully understood.

If there are any questions regarding the Browerville School District Pest Management Program or you would like more information on the pesticide application schedule, please feel free to call the school at 320-594-2272.

Parents of students may request to receive, at their expense, prior notification of any application of a pest control material. Please contact the office at 594-2272 if you wish to receive this notification.

MINNESOTA DEPARTMENT OF EDUCATION REQUIRED POSTING OF PARENT/GUARDIAN PARTICIPATION REFUSAL FOR STATEWIDE TESTING.

Statewide Assessments: Parent/Guardian Participation Guide and Refusal Information

Your student’s participation in statewide assessments is important as it allows your school and district to ensure all students have access to a high-quality education. In the past, students with disabilities and English learners were often excluded from statewide assessments. By requiring that all students take statewide assessments, schools and teachers have more information to see how all students are doing. This helps schools to continuously improve the education they provide and to identify groups, grades, or subjects that may need additional support.

Assessments Connect to Standards

Statewide assessments are based on the [Minnesota Academic Standards](#) or the [WIDA English Language Development Standards](#). These standards define the knowledge and skills students should be learning in K–12 public and charter schools. Minnesota prioritizes high-quality education, and statewide assessments gives educators and leaders an opportunity to evaluate student and school success.

Minnesota Comprehensive Assessments (MCA) and Minnesota Test of Academic Skills (MTAS)

MCA and MTAS are the annual assessments in reading, mathematics and science that measure a snapshot of student learning of the Minnesota K–12 Academic Standards.

ACCESS and Alternate ACCESS for English Learners

The ACCESS and Alternate ACCESS are the annual assessments for English learners that provide information about their progress in learning academic English based on the WIDA English Language Development Standards.

Statewide Assessments Help Families and Students

Participating in statewide assessments helps families see a snapshot of their student’s learning so they can advocate for their success in school. High school students can use MCA results:

- For course placement at a Minnesota State college or university. If students receive a college-ready score, they may not need to take a remedial, noncredit course for that subject.
- For Postsecondary Enrollment Options (PSEO) and College in the Schools programs.

English learners who take the ACCESS or Alternate ACCESS and meet certain requirements have the opportunity to exit from English learner programs.

Taking Statewide Assessments Helps Your Student’s School

Statewide assessments provide information to your school and district about how all students are engaging with the content they learn in school. This information helps:

- Educators evaluate their instructional materials.
- Schools and districts identify inequities between groups, explore root causes and implement supports.
- School and district leaders make decisions about how to use money and resources to support all students.

Student Participation in Statewide Assessments

Student participation in state and locally required assessments is a parent/guardian choice. If you choose to have your student not participate in a statewide assessment, please provide a reason for your decision on the form. Contact your student’s school to learn more about locally required assessments.

Consequences of Not Participating in Statewide Assessments

- The student will not receive an individual score. For ACCESS and Alternate ACCESS, the student would not have the opportunity to exit their English learner program.
- School and district assessment results will be incomplete, making it more difficult to have an accurate picture of student learning.
- Since all eligible students are included in some calculations even when they do not participate, school and district accountability results are impacted. This may affect the school's ability to be identified for support or recognized for success.

Check with your local school or district to see if there are any other consequences for not participating.

Additional Information

- On average, students spend less than 1 percent of instructional time taking statewide assessments each year.
- Minnesota statutes limit the total amount of time students can spend taking other district- or school-wide assessments to 11 hours or less each school year, depending on the grade.
- School districts and charter schools are required to publish an assessment calendar on their website by the beginning of each school year. Refer to your district or charter school's website for more information on assessments.

(Note: This form is only applicable for the 20__ to 20__ school year.)

Statewide Assessment: Parent/Guardian Decision Not to Participate

By completing this form, you are acknowledging that your student will not participate in statewide assessments and will not receive individual assessment results. This form must be returned to your student's school before the applicable test administration.
